

Farm vehicles are an indispensable part of Connecticut's farms and agricultural enterprises.

This free educational program will cover what every operator needs to know to comply with Federal and State trucking regulations.

Agricultural exemptions, CDL and new Electronic Data Logger (EDL) regulations will be discussed.

Representatives from Federal Motor Carrier Safety Administration and the Commercial Vehicle Safety Division of Connecticut DMV will be presenting the information and be available to answer your questions.

A representative from Nationwide® Risk Management Services will discuss distracted driving.

Program content will be both indoors and outdoors with trucks and trailers on-hand to review truck safety
